

2015 - 2016 BOARD GOALS

Partnering with our communities

Strengthen all student and staff experiences by effectively communicating with business and community resources.

Delivering innovation and excellence in education

Drive individual staff improvement and growth by being recognized as state and national leaders in career technical initiatives, performing at a high professional level by achieving advanced state, industry, and national certifications and recognition, and providing the technology to achieve. This will ensure Pioneer continues to be recognized as a state and national leader in career-technical education.

Providing real skills and real knowledge for real world success.

Provide rigorous academic, career technical, and life skills learning opportunities for each student to ensure they are on the trajectory for ever changing College and Career Readiness for success in the 21st century global economy.

Ensuring fiscal stability.

Plan, manage, monitor and report spending to provide decision makers and the community with a reliable, accurate and complete view of the financial performance of the district while supporting academic success for all students at all levels.

Providing unparalleled customer service.

Provide excellent customer service that leaves every customer with a lasting positive impression of Pioneer Career and Technology Center.
