Pioneer Technology Center School District – Richland County
Notes to the Five-Year Forecast
General Fund Only
September 15, 2025

Introduction to the Five-Year Forecast

A forecast is a snapshot of today. Based on historical trends, what we know and future assumptions. That snapshot, however, will be adjusted because the further into the future the forecast extends, the more likely it is that the projections will deviate from experience. Various events will ultimately impact the latter years of the forecast, such as state budgets (adopted every two years), tax levies (new/renewal/replacement), salary increases, enrollment variances, or businesses moving in or out of the district. The five-year forecast is a crucial management tool and must be updated periodically. The five-year forecast enables district management teams to examine future years' projections and identify when challenges will arise. This helps district management to be proactive in meeting those challenges. School districts are encouraged to update their forecasts with the Ohio Department of Education and Workforce (ODEW) when events materially change their forecast or, at a minimum, when required under the statute.

In a financial forecast, the numbers only tell a small part of the story. For the numbers to be meaningful, the reader must review and consider the Assumptions of the Financial Forecast before drawing conclusions or using the data as a basis for other calculations. The assumptions are fundamental to understanding the rationale of the numbers, particularly when a significant increase or decrease is reflected.

Since the preparation of a meaningful five-year forecast is as much an art as it is a science and entails many intricacies, it is recommended that you contact the Treasurer/Chief Fiscal Officer of the school district with any questions you may have. The Treasurer/CFO submits the forecast, but the Board of Education is recognized as the official owner of the forecast.

Here are three (3) essential purposes or objectives of the five-year forecast:

- (1) To engage the local board of education and the community in long-range planning and discussions of financial issues facing the school district.
- (2) To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. §5705.412, commonly known as the "412 certificate".
- (3) To provide a method for the Ohio Department of Education and Workforce and the Auditor of State to identify school districts with potential financial problems.

Ohio HB96 was passed in June 2025 which amended O.R.C. 5705.391 and O.A.C. 3301-92.04 requiring a Board of Education (BOE) to file their current years budgeted revenue and expenses, and three additional years. This is essentially a four (4) year forecast. Beginning in fiscal year 2026 (July 1 to June 30) the financial forecast must be filed by October 15, and the end of February. The filing deadlines will change in fiscal year 2027 to August 31, and end of February each fiscal year thereafter. While the legislative requirement is to file a four-year forecast, as noted above, we believe it is a prudent business practice to continue to develop a five-year forecast for planning purposes. The five-year forecast includes three years of actual and five years of projected general fund revenues and expenditures. The first year of the financial forecast is considered the current year budget and is used as the base for future years projections. Our forecast is updated to reflect the most current economic data available for the October 2025 filing.

Economic Outlook

The current global economic condition is marked by a mix of recovery and uncertainty. While some regions, particularly advanced economies, are experiencing stable growth, inflation rates remain high in several parts of the world, driven by supply chain disruptions, rising energy costs, and labor shortages. Central banks, notably the Federal Reserve, have raised interest rates to combat inflation, which has slowed economic activity in some sectors. Meanwhile, emerging markets face unique challenges, such as fluctuating commodity prices and currency depreciation, exacerbating debt burdens. Overall, the outlook is cautious, with geopolitical tensions, particularly around energy and trade, adding further complexity to the global economic landscape.

Data and assumptions noted in this forecast are based on the best and most reliable data available to us as of the date of this forecast.

Forecast Risks and Uncertainty:

A five-year financial forecast has risks and uncertainty not only due to economic delays noted above but also due to state legislative changes that will occur in the spring of 2027 and 2029 due to deliberation of the following two (2) state biennium budgets for FY28-29 and FY30-31, both of which affect this five-year forecast. We have estimated revenues and expenses based on the best data available and the laws currently in effect. The items below give a short description of the current issues and how they may affect our forecast in the long term:

1. Being in eight different counties can pose many challenges in determining the increases or decreases in values. The reappraisal cycles for the counties are spread over the full three-year cycle. The sexennial reappraisal was completed in 2023, to be collected in 2024 for Richland, Morrow, and Seneca Counties and will have a triennial update in 2026, to be collected in 2027. Crawford and Huron Counties' triennial update was completed in 2021, for collection in 2022 and will have a reappraisal in 2024 to be collected in 2025. Ashland County had a triennial update in 2023 for collection in 2024 and will have a sexennial reappraisal in 2026 for collection in 2027. Marion and Wyandot Counties' triennial update was completed in 2022, collecting in 2023, and will have a reappraisal in 2025 to be collected in 2026. Richland and Crawford Counties' valuations are the most significant of all of the counties; therefore, we are basing our reappraisal increases on the cycles they follow every three years. Richland County makes up 51% of Class I, 55% of Class II, and 44% of PUPP values for the district. Where Crawford County makes up 24% of Class I, 28% of Class II, and 41% of PUPP values for the district. Combined these two Counties make up 75% of Class I, 83% of Class II, and 85% of all values for the district.
2. On August 19, 2025, the Ohio Supreme Court affirmed the Board of Tax Appeals decision concerning the pipeline's public utility property tax valuation. That means Pioneer will at some point receive additional funds from the delinquent 2019 amount they did not pay. It is not known at this time what that means for the subsequent years in which Rover appealed. County Auditors are awaiting guidance from the Department of Taxation as to what the next steps are. This forecast does not factor in any delinquent amounts from tax year 2019 to 2025. It also projects the PUPP valuation at the lower amount that Rover was actually paying on. Rover typically paid 44.7% of what their tax bill actually was during that five year period.
3. Due to historic property value increases in reappraisal and update years the Ohio Legislature has considered various proposals since 2023 to help reduce non-voted tax increases on taxpayers. HB96 the current state biennium budget passed in June which included several proposals that would have ultimately reduced districts' cash balances and placed severe restrictions on increasing local tax revenues. The Governor vetoed four (4) property tax measures that he said would jeopardize the financial stability of public schools. The Ohio House of Representatives pulled three (3) of the Governor's vetoes addressing school district to attempt to override them. They included: 1) County Budget Commission Authority; 2) manipulates the calculation of the 20-mill floor to include emergency, substitute and other levies in the calculation; and 3) the elimination of various levies including emergency, replacement and renewal levies

The Ohio House of Representatives met on July 21, 2025 and voted (61-58) in favor of overriding the elimination of various levy types - only. As of this forecast filing, the Senate has not met to vote on any of the vetoes thus the Governor's vetoes remain in effect.

As part of the Governors' vetoes, he created a property tax reform working group co-chaired by former legislators. The governor appointed 11 members including the co-chairs. The working group is tasked with thoroughly examining issues related to how to provide meaningful property tax relief to homeowners and businesses while ensuring that funding for local schools, local governments, fire, police, EMS, libraries, and developmental disabilities is adequate. The Governor has asked the working group to issue a report with concrete proposals by September 30, 2025

The legislature has introduced several other bills that would limit real estate tax growth or eliminate real estate tax collections completely. Many of these bills are still in committee. We are watching legislation closely for any impact on our local revenues

4. HB96, the current state budget, continues to phase in what has been referred to as the Fair School Funding Plan (FSFP) for FY26 and FY27. FY26 reflects 83.33% of the implementation cost at year five of a six-year phase-in

plan, which increases by 16.66% each year. FY27 will result in 100% funding of (FSFP). HB96 did not increase the cost inputs while allowing revenue inputs to increase. This causes more districts to appear to have greater local ability to fund their schools thus reducing the amount of State Aid they receive. We have used the most recent simulations published by the Department of Education and Workforce for our forecasted revenues in FY26.

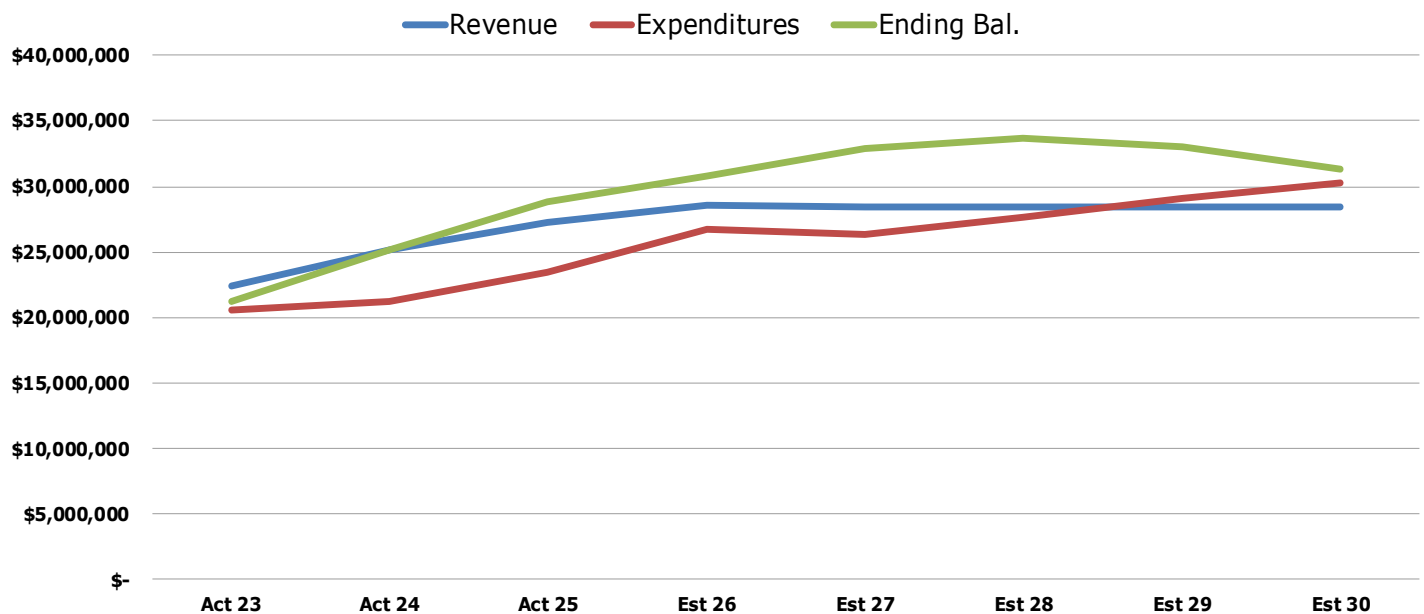

5. HB96, the current state biennium budget also enacted a new provision called “Piggyback Property Tax Exemptions”. This provision allows county commissioners in each county in Ohio to double the current Homestead Exemption and owner occupied 2.5% tax credit. The extended tax credits for qualifying taxpayers would result in reduced property tax collections for the school district of roughly \$223 thousand from current operating levies, if our County Commissioners implement this. This new law creates a potential risk to our local tax collections.
6. Labor relations in our district have been amicable with all parties working for the best interest of students and realizing the resource challenges we face. We believe that as we move forward our positive working relationship will continue and will only grow stronger. Negotiations for FY25-27 were finalized in late April 2024. Negotiations for a new contract will begin in the spring of 2027.

The significant lines of reference for the forecast are noted below in the headings to make it easier to relate the assumptions made for the forecast item and refer back to the forecast. It should assist the reader in reviewing the assumptions noted below in understanding the overall financial forecast for our district. If you would like further information, please contact Gavyn Bazley, Treasurer.

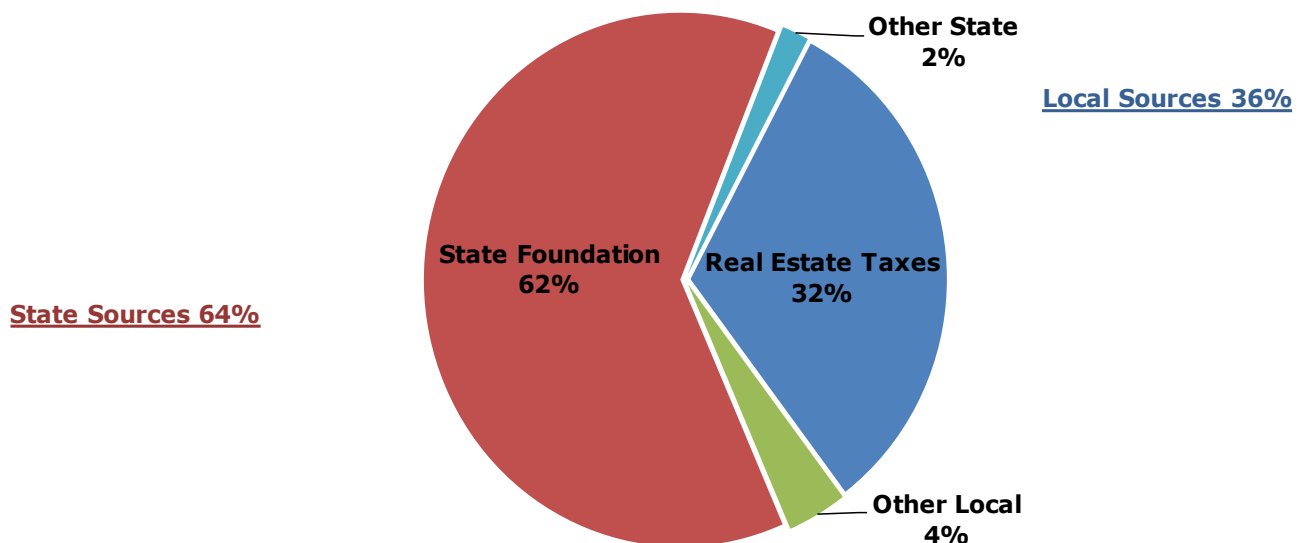

General Fund Revenue, Expenditures and Ending Cash Balance Actual FY23-25 and Estimated FY26-30

The graph below captures in one snapshot the operating scenario facing the district over the forecasted years.

General Fund Revenue, Expenditures & Cash Balance

Revenue Assumptions All Operating Revenue Sources General Fund FY26 General Fund Estimated Revenues FY26 \$ 28,300,986

Real Estate Value Assumptions – Line # 1.010

Property Values are established each year by the County Auditors in Richland, Crawford, Morrow, Huron, Ashland, Seneca, Wyandot, and Marion counties based on new construction and complete reappraisal or updated values. There was a sexennial reappraisal completed in 2023 for the collection in 2024 for Richland, Morrow, and Seneca Counties. These counties combined make up 64.9% of Class I, 59% of Class II, and 53% of PUPP. Crawford and Huron Counties had a triennial update in 2021 to be collected in 2022, which make up 31.5% of Class I, 40.1% of Class II, and 43.6% of PUPP. Ashland County had a reappraisal in 2020 to be collected in 2021, and makes up 2.4% of Class I, 0.6% of Class II, and 3.1% of PUPP. Marion and Wyandot Counties had a reappraisal in 2022 collected in 2023, and makes up 1.2% of Class I, 0.2% of Class II, and 0.3% of PUPP.

Class I the residential/agricultural values increased 21.5%, or \$464.4 million, due to the updates for Richland, Morrow, and Seneca Counties due to an increasing housing market in tax year 2023. There was an increase in the Class II commercial/industrial values of 10.5%, or \$33.5 million, for the reappraisal. The 2021 triennial update, to be collected in 2022, for Crawford and Huron Counties realized an increase in Class I of 2.8%, or \$57.8 million, and an increase of 0.15%, or \$455 thousand, in Class II. The update in 2026, for collection in 2027, for Richland, Morrow, and Seneca Counties, we are projecting an increase in valuations of 1%, or \$30.6 million, in Class I and a 0.5% increase in Class II for \$1.8 million of valuation. The update in 2027 for collection in 2028 for Crawford and Huron Counties, we are projecting an increase in valuations of 1%, or \$31 million, in Class I and a 0.5% increase in Class II for \$1.9 million of valuation.

We have been conservative with any future value increases for reappraisal or updates due to uncertainty over pending legislation as noted in the Forecast Risks and Uncertainty above.

Tax Rate Assumptions

A Career Center has a 2-mill floor if that is the amount of the original millage rate voted for the district. The Pioneer CTC has 3.7 mills voted that are collecting at 2 mills for Class I in tax year 2024 and 2.92 mills for Class II, but the millage rate cannot go any lower than 2 mills at any time. Due to HB920, the district's effective millage will decrease as values increase until they reach the 2-mill floor. Currently, our district is on the floor for Class I but above the floor for Class II effective millage.

Levy Renewal –Lines #11.010-11.030

No levy renewals are modeled in this forecast.

New Tax Levies – Lines #13.010-13.030

No new levies are modeled in this forecast.

Estimated Public Utility Personal Tax – Line#1.020

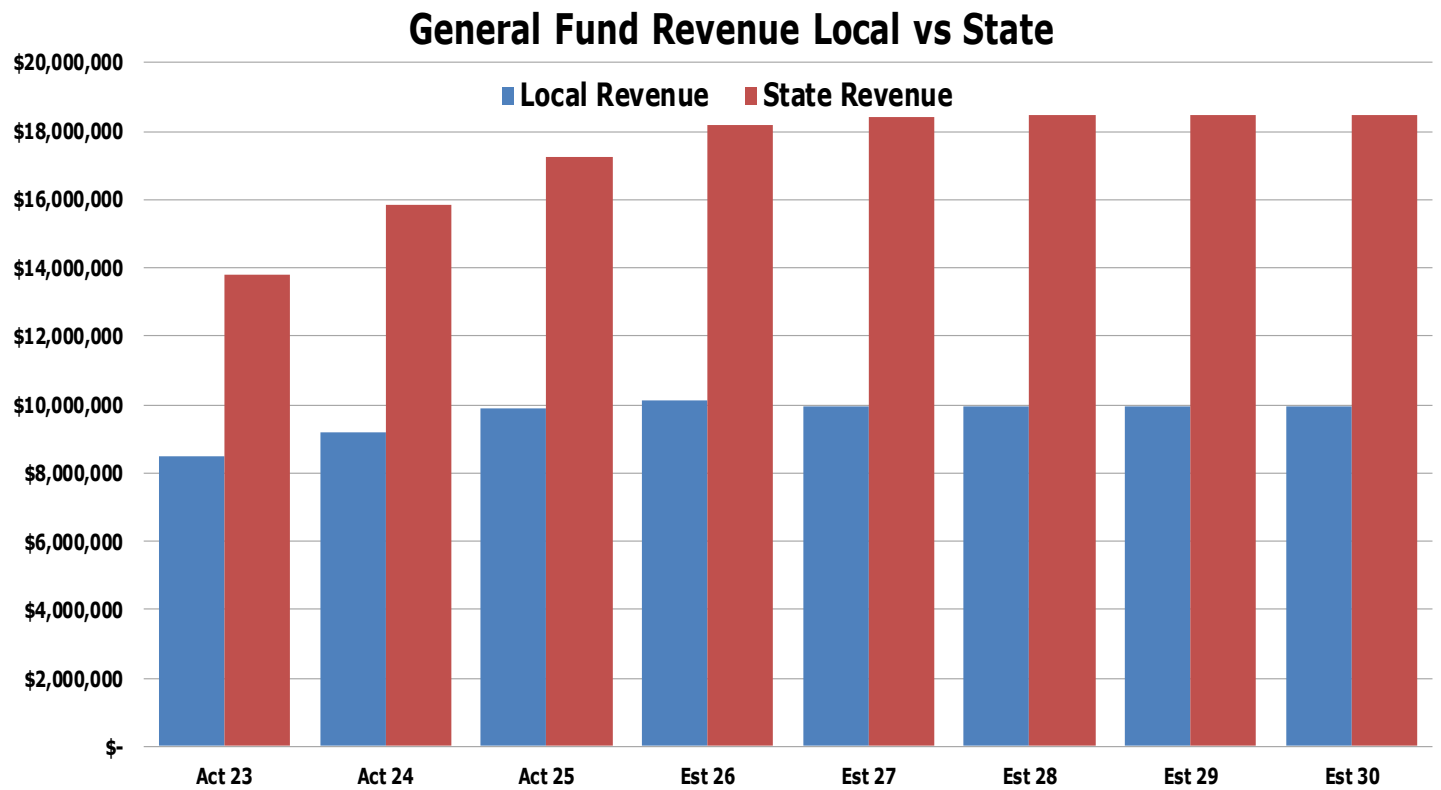

Amounts noted below are public utility personal property (PUPP) tax payments from public utilities. The values for PUPP are noted on the table above under Public Utility (PUPP), which were \$528.2 million in assessed values in tax year 2024 and are collected at the district’s gross voted millage rate. Collections are typically 70% in March and 30% in August along with the real estate settlements from the county auditor. The values in 2024 increased by 6.5% or \$32.6 million and are expected to grow by \$5 million each year of the forecast.

The values in 2018, 2019, and 2020 increased by 77.69%, 48.35%, and 27.37% or \$123, \$136 million, and \$114 million, respectively, due to the Rover pipeline. However, Rover has not been paying on their entire valuation pending their appeal of the valuations. In tax year 2021, values decreased by 11.7% or \$62.7 million.

State Foundation Revenue Estimates – Lines #1.035, 1.040 and 1.045
Current State Funding Model per HB96 through June 30, 2027

Unrestricted State Foundation Revenue – Line #1.035

HB96, the current state budget, continued the Fair School Funding Plan for FY26 and FY27, which funds students where they are educated rather than where they live. We have projected FY26 funding based on the most current foundation settlement and funding factors.

Our district is currently a formula district in FY26 and is expected to continue to be on the formula in FY26-FY30 on the new Fair School Funding Plan (FSFP).

A detailed overview of how foundation funding is calculated including all of the HB96 changes on the Ohio Department of Education and Workforce is not available at this time. When a detailed analysis is available, please visit the Ohio Department of Education and Workforce at: <https://education.ohio.gov/Topics/Finance-and-Funding/Overview-of-School-Funding>.

Joint Vocational Career-Technical Funding in FY26

The new funding formula for joint vocational school districts is substantially similar to the formula for traditional school districts as described above, including the phase-in and guarantee, with the following changes:

1. Replaces the “special teacher” cost in the base cost computation with the “cost for teachers providing health and physical education, instruction regarding employability and soft skills, development and coordination and internships and job placements, career-technical student organization activities, pre-apprenticeship and apprenticeship coordination, and any assessment related to career-technical education, including any nationally recognized job skills or end-of-course assessment,” which are calculated in the same manner.
2. Does not specify a minimum for the number of staff members for the staffing cost for student wellness and success for the district in base cost computation.
3. Calculates the district’s cost for that fiscal year for career-technical curriculum specialists and coordinators, career assessment and program placement, recruitment and orientation, student success coordination, analysis of test results, development of intervention and remediation plans and monitoring of those plans, and satellite program coordination. This funding replaces a traditional district's cost computations for academic and athletic co-curricular activities.
4. Replaces per-pupil dollar amount with weighted funding for the five different career-technical programs.
5. A funding unit will be based on the funding unit’s state share percentage times the career-technical education associated services amount times the statewide average career technical base costs per pupil in that fiscal year times the sum of the funding unit’s categories one through five career-technical education ADM.
6. Once the base cost is calculated by the state, the FSFP then calculates the state share percentage for each district.

CTE Credential Program and Innovative Workforce Incentive Program

HB96 authorized, industry-recognized credentials for high school students. This program is to be used by the Department of Education and Workforce and the Governor's Office of Workforce Transformation to operate the Innovative Workforce Incentive Program. The Office of Workforce Transformation shall maintain a list of credentials that qualify for the program. The Department of Education and Workforce shall pay each city, local, and exempted village school district, community school, STEM school, and joint vocational school district an amount equal to \$725 for each qualifying credential a student attending the district or school earned in the school year preceding the fiscal year in which the funds are appropriated. If the \$16 million per year that is appropriated is not sufficient, the Department shall prorate the amounts so that the aggregate amount appropriated is not exceeded.

Career Awareness and Exploration Funds

Requires the lead district or each CTC to receive career awareness and exploration funds and to report the use of the funds to ODEW. The amount per pupil in HB96 was reduced from \$10 to \$3 per pupil for FY26 and FY27.

Future State Budget Projections beyond FY27

Our funding status for FY28-FY30 will depend on unknown two (2) new state budgets. There is no guarantee that the current Fair School Funding Plan will be continued in future biennial budget process; therefore, our state funding estimates are reasonable, and we will adjust the forecast when we have authoritative data to work with. For this reason, funding is conservatively forecasted at FY27 levels for FY28 through FY30.

Casino Revenue

On November 3, 2009, Ohio voters passed the Ohio casino ballot issue. This issue allowed four (4) casinos to open in Cleveland, Toledo, Columbus, and Cincinnati. Thirty-three percent (33%) of the gross casino revenue will be collected as a tax. School districts will receive 34% of the 33% of Gross Casino Revenue that will be paid into a student fund at the state level. These funds will be distributed to school districts on the 31st of January and August each year, beginning for the first time on January 31, 2013.

Total casino funding in FY24 was \$113.1 million or \$64.90 per pupil. In FY25, the funding totaled \$114.3 million or \$65.70 per pupil. We expect the Casino revenues to have resumed their historical growth rate and are assuming a 1.5% annual growth rate for the remainder of the forecast.

Restricted State Revenues – Line #1.040

HB96 has continued Disadvantaged Pupil Impact Aid (formerly Economic Disadvantaged funding), Career Technical, Gifted, English Learners (ESL), and Student Wellness funding. We have estimated revenues for these new restricted funding lines using the most current funding factors available. For fiscal years 2026 and 2027, HB96 modifies how DPIA is calculated by factoring in both directly certified and economically disadvantaged students. The new formula modifies the weight given to these student groups over the biennium.

State Reimbursement for Property Tax Credits – Line #1.050

Rollback and Homestead Reimbursement

Rollback funds are reimbursements paid to the district from the State of Ohio for tax credits given to owner-occupied residences. Credits equal 12.5% of the gross property taxes charged to residential taxpayers on levies passed before September 29, 2013. HB59 eliminated the 10% and 2.5% rollback on new levies approved after September 29, 2013.

Homestead Exemptions are credits paid to the district from the state of Ohio for qualified elderly and disabled. In 2007, HB119 expanded the Homestead Exemption for all seniors 65 years or older or disabled, regardless of income. Effective September 29, 2013, HB59 changed the requirement for Homestead Exemptions. Individual taxpayers who still need to get their Homestead Exemption approved or those who did not get a new application approved for the tax year 2013 and who become eligible after that will only receive a Homestead Exemption if they meet the income qualifications. Taxpayers who had their Homestead Exemption as of September 29, 2013, will not lose it and will not have to meet the new income qualification. This will generally reduce homestead reimbursements to the district over time, and as with the rollback reimbursements above, the state is increasing the tax burden on our local taxpayers.

HB96, the current state biennium budget also enacted a new provision called “Piggyback Property Tax Exemptions”. This provision allows county commissioners in each county in Ohio to double the current Homestead Exemption and owner

occupied 2.5% tax credit. The extended tax credits for qualifying taxpayers would result in reduced property tax collections for the school district of roughly \$223 thousand from current operating levies, if our County Commissioners implemented this.

Source	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
Rollback and Homestead	<u>\$480,713</u>	<u>\$485,715</u>	<u>\$495,654</u>	<u>\$505,711</u>	<u>\$515,889</u>

Other Local Revenues – Line #1.060

All other local revenue encompasses any revenue that does not fit the above lines. The primary sources of revenue in this area have been; class fees, interest on investments, tuition for court-placed students, Manufactured Homes, rental income and Associated Services. Since FY22, any open-enrolled students since have been counted in our Enrolled ADM numbers for state funding and are not separately funded.

Interest income is based on the district cash balances and increased interest rates due to the Federal Reserve raising rates to curb inflation. The Federal Reserve Bank cut interest rates by 50 basis point in September 2024 and an additional 25 basis points in December 2024. While interest income in FY26 should remain steady, the rate cuts will begin to have an impact on earnings in FY27 and future years. We will continue to monitor the investments for the district.

Rentals have returned to pre-pandemic levels. All other revenues are expected to continue on historical trends.

Expenditure Assumptions

The district's leadership team is always looking at ways to improve the education of the students, whether it be with changes in staffing, curriculum, or new technology needs. As the administration of the district reviews expenditures, the education of the students is always the main focus for resource utilization.

All Operating Expense Categories - General Fund FY26

General Fund Operating Expenditures Estimated FY26 \$25,401,638

Salary and Benefits 72.9%

Wages – Line #3.010

This line of the forecast is made up primarily of wages or salaries paid to staff. Substitutes and supplemental extracurricular contracts, as well as payments for the Board of Education can also be found here. The forecast reflects base increases of **3%** in FY26-30. Administration and non-represented staff typically will see a similar increase as the collective bargaining units; however, these are reviewed on an annual basis. The district will continue to monitor the staffing levels to effectively manage the largest expense for our district. The increases above align with the negotiated agreement that is in place for FY25-27. The district will negotiate in the spring of 2027, prior to the end of this contract.

The district received a career technology expansion grant and, depending on when the project is completed, we anticipate adding an additional class in the 2026-2027 school year. Due to this, we have included an estimated addition of one teacher.

Source	FY26	FY27	FY28	FY29	FY30

Fringe Benefits Estimates – Line #3.020

This area of the forecast captures all costs associated with benefits and retirement costs. These payments are included in the table below.

A) STRS/SERS will increase as Wages Increase

As the law requires, the BOE pays 14% of all employee wages to STRS or SERS. The district is also required to pay SERS Surcharge, an additional employer charge based on the salaries of lower-paid members. It is exclusively used to fund healthcare.

B) Insurance

The district saw an increase of 4.8% in FY25 and are estimating to receive a 10% increase for FY26-30, which reflects trend, and the likely increase in health care costs as a result of actual claims incurred. This is based on our current employee census and claims data.

C) Workers Compensation & Unemployment Compensation

Workers' Compensation is expected to be approximately 0.20% of wages FY26 through FY30. Unemployment is likely to remain at a shallow level FY26 through FY30. The district is a direct reimbursement employer meaning unemployment costs are only incurred and due if we have eligible employees and draw unemployment.

D) Medicare

Medicare will continue to increase at the rate of increases in wages and as new employees are hired. Contributions are 1.45% for all new employees to the district on or after April 1, 1986. These amounts are growing at the general growth rate of wages.

Estimated Fringe Benefits – Line #3.020

Source	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
A) STRS/SERS	\$2,006,866	\$2,117,131	\$2,221,464	\$2,330,997	\$2,445,992
B) Insurance's	3,699,718	4,080,690	4,499,759	4,960,735	5,467,809

Total Fringe Benefits Line #3.020	<u>\$5,943,338</u>	<u>\$6,445,580</u>	<u>\$6,979,394</u>	<u>\$7,560,837</u>	<u>\$8,194,382</u>

Purchased Services – Line #3.030

Purchased Services includes various services and supports that the district acquires from external providers to enhance educational operations and student well-being. College Credit Plus, excess fees, and other tuition costs will continue to draw funds away from the district, which will continue in this area and has been adjusted based on historical trends. In FY26 there will be a new electric Capacity Charge that will be assessed on all electric bills to help expand Ohio's electric generating ability. This charge will begin June 2025 and end June 2026. It is anticipated it will increase electric costs by 20% annually for just that twelve (12) month period. For purchased services overall, we have built in a 5% increase for FY26-30.

The district encountered a timing issue with respect to the college credit plus deductions that flow through our foundation payments with the State of Ohio. One of the colleges we work with was delayed in their fall 2023 course reporting. This is causing an estimated \$332 thousand to not be deducted from our foundation payments until the August payment of 2024, which is in fiscal year 2025. We have removed this increase from FY26 estimates to not include the inflated FY25 expenditures in our trend analysis.

Source	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
College Credit Plus	\$820,524	\$861,550	\$904,628	\$949,859	\$997,352

Capital Outlay – Line # 3.050

Capital Outlay is distinct from Supplies and Materials, as these purchases are for assets with a longer lifespan and higher cost, such as land, buildings, equipment, and vehicles. The district is in planning to undergo a construction project that will expand the cafeteria space for students. This is the reason for the higher estimated capital outlay expenditure in FY26. The estimates for future years are in line with historical expenditures for capital outlay.

Principal and Interest Payments – Lines #4.010 through #4.060

Payments on this line are made for the principal and interest on the 2008 OSFC renovation project Certificates of Participation (COPS). In March 2015, with interest rates low, the district seized the opportunity to refinance the original COPS issue that funded the renovations completed to the district in fiscal year 2012. The refinance yielded a net present value savings of \$458 thousand to the district and their taxpayers over the remaining life of the COPS.

Other Expenses – Line #4.300

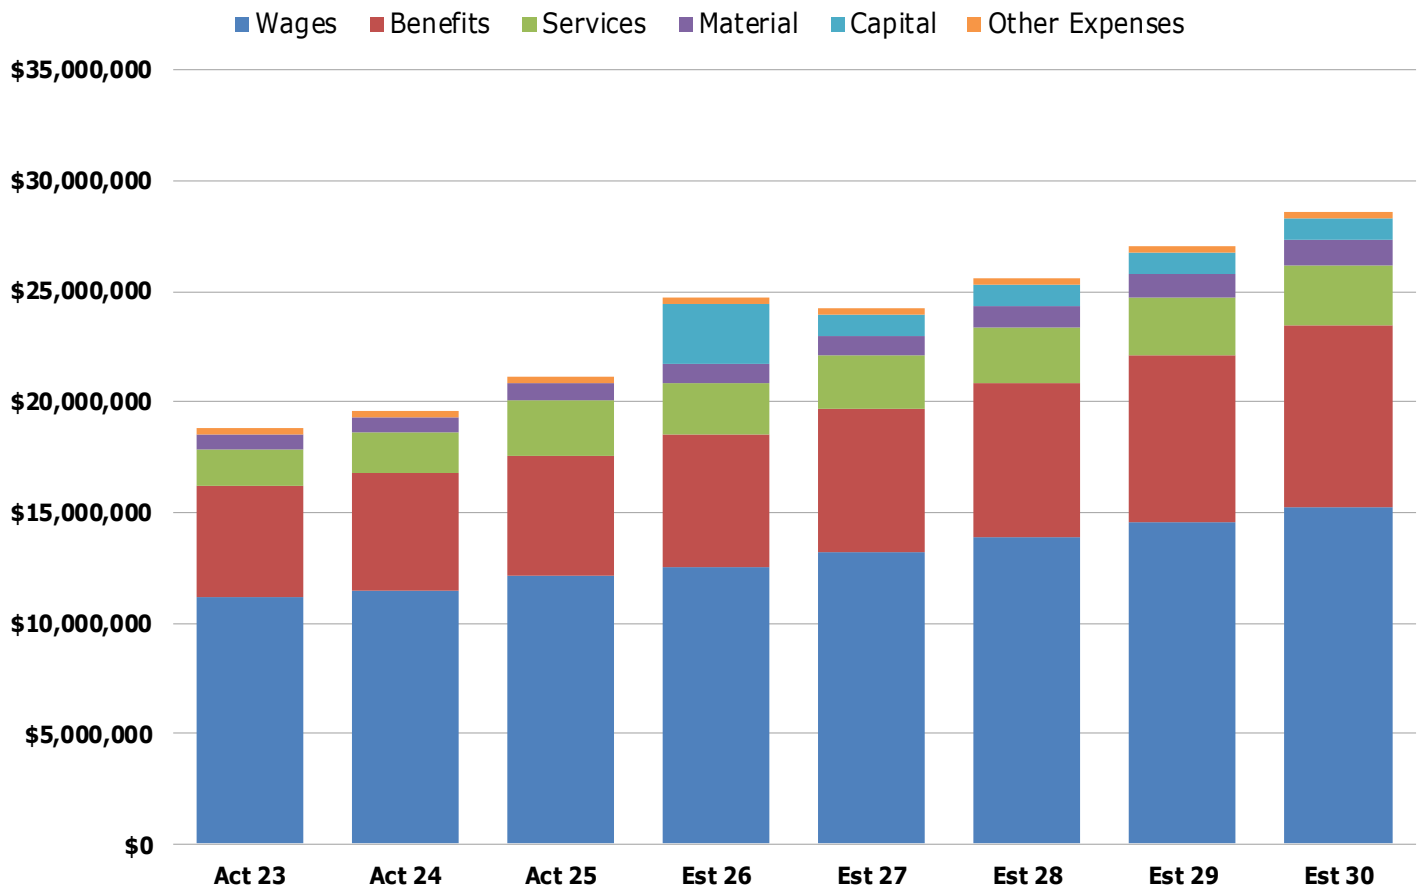

This category of expenses is primarily fees to the county auditors and treasurers for collecting property taxes and the annual financial audit. The other expense category is several small expenses with the largest being district liability insurance and dues and fees to organizations such as OSBA. This line reflects a 1% increase for the forecasted period. We will continue to monitor and adjust in future years as necessary.

Operating Expenditures Actual FY23 through FY25 and Estimated FY26-FY30

As the following graph indicates, we have diligently contained costs due to lower and flat state revenues. We control our expenses while balancing students' academic needs to enable them to excel and perform well on state performance standards.

General Fund Expenditures Actual FY23 through Est. FY30

Transfers/Advances Out – Line# 5.010

This account group covers fund-to-fund transfer and end of year short-term loans from the General Fund to other funds until they have received reimbursements and can repay the General Fund. These amounts are limited in impact to the General Fund as the amounts are repaid as soon as dollars are received in the debtor fund. We are anticipating transfers out each year of the forecast to be \$1 million for FY27-30, distributed as follows: Maintenance Fund of \$425 thousand and Permanent Improvement Fund of \$500 thousand, and other transfers totaling \$102 thousand. The Permanent Improvement transfer will be increased for FY25 and FY26 at \$800 thousand and \$500 thousand, respectively. Advances are projected to be paid back

in the following year and are typically to cover negative balances in reimbursement-based grant funds. Currently, we are not projecting an increase to this line.

Source	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
Permanent Improvement - Transfer	\$800,000	\$800,000	\$800,000	\$800,000	\$400,000
Maintenance - Transfer	425,360	425,360	425,360	425,360	425,360
Other - Transfer	<u>102,735</u>	<u>102,735</u>	<u>102,735</u>	<u>102,735</u>	<u>102,735</u>
Operating Transfers Out Line #5.010	<u>\$1,328,095</u>	<u>\$1,328,095</u>	<u>\$1,328,095</u>	<u>\$1,328,095</u>	<u>\$928,095</u>
Advances Out Line #5.020	\$0	\$0	\$0	\$0	\$0
Total Transfer & Advances Out	<u>\$1,328,095</u>	<u>\$1,328,095</u>	<u>\$1,328,095</u>	<u>\$1,328,095</u>	<u>\$928,095</u>

Encumbrances – Line#8.010

Encumbrances represent purchase authorizations and contracts for goods or services that are pending vendor performance and those purchase commitments, which have been performed, are awaiting invoicing and payment. Encumbrances, on a budget basis of accounting, are treated as the equivalent of expenditure at the time authorization is made to maintain compliance with spending restrictions established by Ohio law. For presentation in the forecast, outstanding encumbrances are presented as a reduction of the general fund cash balance.

	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
Estimated Encumbrances	<u>\$330,957</u>	<u>\$330,957</u>	<u>\$330,957</u>	<u>\$330,957</u>	<u>\$330,957</u>

Ending Unencumbered Cash Balance – Line#15.010

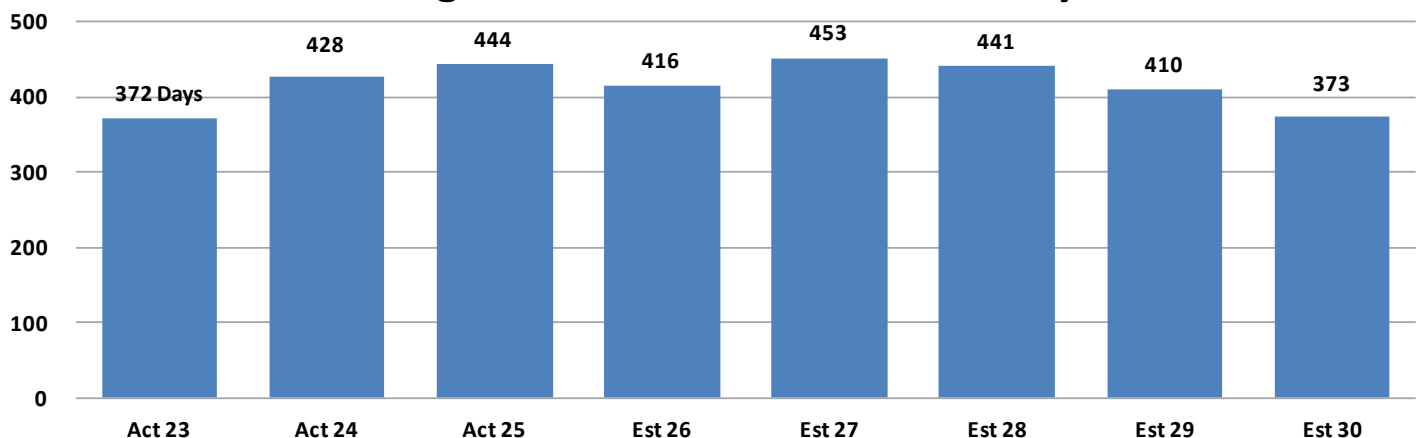

This amount must not go below \$-0- or the district general fund will violate all Ohio Budgetary Laws. Any multi-year contract, which is knowingly signed, and which results in a negative unencumbered cash balance, is a violation of O.R.C. §5705.412, which is punishable by personal liability of \$10,000; unless an alternative 412 certificate, as permitted by HB153, effective September 30, 2011, could be issued. It is recommended by the Government Finance Officers Association (GFOA) and other authoritative sources that a district maintains a minimum of thirty (30) day cash balance, which is approximately **\$1.8** million for our district.

	<u>FY26</u>	<u>FY27</u>	<u>FY28</u>	<u>FY29</u>	<u>FY30</u>
Ending Unencumbered Cash Balance	<u>\$30,450,464</u>	<u>\$32,586,668</u>	<u>\$33,378,315</u>	<u>\$32,718,607</u>	<u>\$30,931,914</u>

True Cash Days Ending Balance

Another way to look at ending cash is to state it in ‘True Cash Days’. In other words, how many days could the district operate at year-end if no additional revenues were received? This is the Current Years Ending Cash Balance divided by (Current Years Expenditures/365 days) = the number of days the district could operate without additional resources or a severe resource interruption. The Government Finance Officers Association (GFOA) recommends that no fewer than two (2) months or 60 days of cash is on hand at year-end. Still, it could be more dependent on each district's complexity and risk factors for revenue collection. This is calculated, including transfers, as this is a predictable funding source for other funds such as capital, athletics, and severance reserves.

Ending Cash Balance in True Cash Days

Conclusion

As the administration plans for the future, they will need to make sure that the district is able to maintain a positive cash balance throughout the forecast. The expenditures will need to be reviewed based on the current revenues in order to obtain this.

As you read through the notes and review the forecast, remember that the forecast is based on the best information that is available to us at the time the forecast is prepared.
